New Tools Make it Easier to Compare Scores

ETS has created new score comparison tools, including an interactive tool, to make it easier for institutions to compare *TOEFL iBT*® scores to the IELTS® academic module.

While there are many score comparison tools online, most do not appear to be based on research. To provide a more valid resource, ETS has developed score comparison tools based on the analysis of 1,153 individuals who took both the TOEFL test and the IELTS academic test.

You can visit ets.org/toefl/comparescores to experience the new, interactive comparison tool to compare TOEFL iBT scores and the IELTS band scores. You will also find the research reports on which these tools are based:

- Linking TOEFL iBT® Scores to IELTS® Scores – A Research Report
- Linking English-language Test Scores onto the Common European Framework of Reference

Answers to some of the most frequently asked questions about comparing TOEFL scores can also be found on the TOEFL site.
