## 1. COURSE OBJECTIVES

This course aims to equip students interested in a career in the institutions of the European Union (EU) with an adequate set of tools: (i) the knowledge about career trajectories in the EU institutions, the different types of status, contracts and positions, as well as the priorities governing work therein, (ii) the know-how on the competitions organised by the European Personnel Selection Office (EPSO) through a comprehensive training covering all the phases of the selection procedure, building on detailed guidance and a wide range of concrete cases, examples and simulation exercises and (iii) the know-be about the culture of the EU institutions and the core values of the European public service. As such, this course offers students an interesting mix of theory and practice to guide them in their future career paths.

## 2. LEARNING OUTCOMES

The above course objectives link up with the following programme-specific learning outcomes:

POL:

- Students possess a pluri-disciplinary understanding of European integration, allowing them to understand fully the nature, dynamics and functioning of the EU system.
- Students have a general knowledge of the main components of the EU political system: institutions, actors, decision-making procedures, competences and policies.
- Students possess an in-depth knowledge of fundamental aspects of the EU political system (institutions, actors, policies etc.).

- Students develop a concrete understanding of the logics of policy-making and negotiation within the EU political system, thanks to simulation exercises and the drafting of policy papers.
- Students can analyse the process and actors of EU policy-making at different levels of governance and can reflect on potential developments.
- Students are able to analyse, in a limited amount of time, complex and new issues, by finding and investigating various sources of information and delivering an analytical and critical synthesis.
- Students are capable of working as part of a complex project, individually or collectively, and they develop skills of planning, organisation, prioritisation and time management.
- Students can communicate clearly and effectively, through oral presentations or written documents, to different kinds of audiences.
- Students are capable of evolving in a multi-cultural context and of taking into account the variety of political systems, institutional logics and cultural backgrounds.

#### MATA:

- The graduate has good knowledge of, depending on his or her disciplinary focus, the political and/or legal systems, the decision-making processes, the economic structures and the main internal and external policies of the European Union and the United States.
- The graduate is capable of processing a large amount of information and appropriately analyse relevant sources depending on his or her disciplinary focus within a short period of time and of suggesting possible actions that contribute to problem-solving in a creative way.
- The graduate has the intellectual maturity and skills to take responsibilities and function autonomously in a professional environment at national or international level, and especially in a transatlantic context, and to work efficiently and effectively through planning, organising, setting priorities, meeting deadlines, cooperating across cultural boundaries and networking.

### 3. COURSE CONTENTS

1. Analysis and presentation of the European public administration from the point of view of careers in the EU institutions, as well as the overarching political priorities and agenda
2. The EPSO competition: multiple-choice question tests and the assessment centre
3. Exercises (1): preparation for the tests (verbal reasoning, numerical reasoning, abstract reasoning and additional possible tests)
4. Exercises (2): preparation for the assessment centre (simulations of written and oral tests)
5. Masterclass on how to carry out successful interviews

### 4. TEACHING METHOD

This course is a highly interactive class providing academic, professional and practical insights. The teaching modalities combine a lecture followed by a discussion, and numerous written and oral exercises to practice the various tests of the competition, as well as a masterclass to prepare and train students for interviews. The students are expected to actively take part in the various activities of the course, to pursue a reflection on their motivation for working in the EU institutions and to follow up on the content of the class through additional readings and exercises. For the final assessment, they will be evaluated on the basis of (i) their understanding and their knowledge of the European public service and of the core principles and priorities governing work in the EU institutions and (ii) a written test mirroring the model of the EPSO competition. The grade obtained will be combined with an assessment of their homework in the form of a written assignment.

## 5. FURTHER DETAILS ON THE TEACHING METHOD

At the end of this course, the students are expected to have gained in-depth knowledge about working in the EU institutions from several angles (priorities, careers, positions, status) and to have acquired and developed a number of key competences, which will be useful to embrace a European career, and beyond. They will have built upon their organisational skills, their quick-wittedness and their abilities in terms of time management to cope with new situations and challenges. Moreover, they will have deepened several core competences, such as analysis and problem solving, communication, delivering quality and results, learning and development, prioritising and organising, resilience, working with others and leadership. Their written and oral English language skills will have been further strengthened through the participation of students in the different parts of the course.

## 7. EVALUATION

- Homework (30% of the final grade): students will be asked to carry out a written exercise replicating the model of the EPSO exam as homework.
- Final examination (70% of the final grade): based on the substance and the training provided in class, the written examination will include an assessment of students' understanding of the functioning and of the values of the European public administration, as well as tests inspired by and in line with the spirit of the EPSO competition.

### *Assessment at second attempt*

- During the second examination session, the course is assessed 100% on the basis of a written resit exam.

\*The evaluation modalities of the final exam may be subject to adaptations in function of the evolution of the sanitary situation
