

# Join a Webex Event

1. Click on the link provided, a browser window will open

The screenshot shows the Cisco Webex interface for an event titled "test 02092020". The event status is "Started". The date and time are "Wednesday 2 September 2020 9:00" in "Europe Summer Time (Amsterdam, GMT+02:00)". The duration is "1 hour". The registration form includes fields for "First name" (John), "Last name" (DOE), "Email address" (john.doe@colerurope.eu), and "Event password". A "Join Now" button is visible, along with a link for "Join by browser NEW!".

2. Enter your name, email and if necessary the event password. Click **Join Now**

3. Install the Webex extension

## Step 1 of 2: Add Webex to Edge

The guide shows two steps: 1. "Add Webex to Edge" and 2. "Get" in the Microsoft store. A large green button at the bottom says "Add Webex to Edge".

Don't want to use an extension? [Run a temporary application](#) to join this meeting.

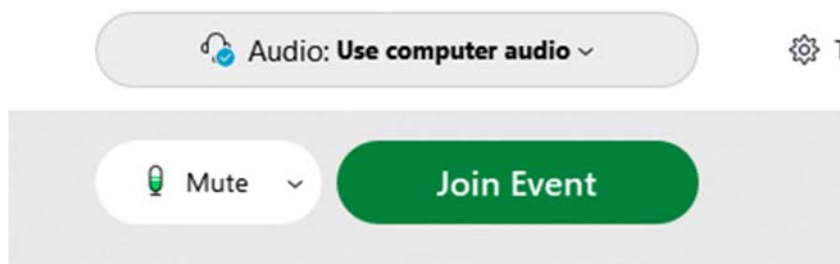

4. After the installation Webex will automatically start.

# Starting Webex...

Still having trouble? [Run a temporary application](#) to join this meeting immediately.

5. Connect your computer audio and video and choose **Join Event**

Depending on your computer's settings, you may be blocked from running the necessary software. If this happens, click Cancel, and go back to your browser's window waiting to open WebEx. You can bypass the above process.
